

CLUB
GOVERNANCE.

Better club growth starts with a good Board of Directors.

It is the level of skill of the Board or Management Committee that will ensure sustainability and growth for your club. Club Governance can provide those skills with online learning at your convenience. No more expensive or time-consuming face to face training but video modules to watch when it suits you. We can teach you about strategic planning, risk management, compliance and how to understand the club finances. For just **\$3000 plus GST** your whole Board and management can view each module for a whole year individually at anytime, or perhaps during a Board meeting together. To find out more go to **www.clubgovernance.com.au**.
